fahlevibani@gmail.com | banifahlevi.github.io

I have a Bachelor's degree from Binus University and a professional certification in data analytics. With 4+ years of work experience as a data analyst, I am passionate about becoming a Subject Matter Expert in this field and continuously learning more. I enjoy analyzing data, solving problems, and presenting reports using data visualization tools. I would appreciate it if you could take the time to review my portfolio on GitHub.

EXPERIENCE

Data Analyst   Mar 2022 - Present
PT Tokopedia
- Analyzing the campaign's performance (i.e. Flash Sale, WIB, etc.) to determine why it's increasing or decreasing. Then we recommend the next action to improve the campaigns for the future.
- Providing analysis to assist the Education team in determining the best seller criteria that must be met to improve their transactions.
- Providing and maintaining dashboards to track the current conditions.

HRIS & Data Analyst   Nov 2019 - Mar 2022
PT Perusahaan Perdagangan Indonesia (Persero)
- Build, develop and monitor data reports required by BOD. Such as monitoring data on the movement of the number of employees.
- Processing and cleansing employee data which at first was messy and could not be processed, into appropriate data required by the system (data cleansing).
- Analyzing and implementing system requirements required by the Human Capital Management department and collaborating with the IT Department.

Data Analyst   May 2018 - Nov 2019
PT Permodalan Nasional Madani (Persero)
- Build, develop and provide insightful weekly and daily reporting data for BOD operations.
- Analyzing the appropriate criteria for branch opening based on sub-district/village location points based on data on the number of KPS (pre-prosperous families).
